1. Target market

Inside the target market

The features of this Product have been assessed as meeting the likely objectives, financial situation and needs of consumers who require a secured loan of between \$50,000 and \$2,000,000, repayable over a term of 15 to 30 years to finance the acquisition of residential property for the purpose of it being their principal place of residence or for investment purposes (or refinance other finance that has been provided for such a purpose) with the ability to obtain an equity release or consolidate debt with:

1. The ability to borrow up to 95% of the value of the property;
2. The flexibility of a variable rate;
3. The option of principal and interest or interest only repayments;
4. The option of an offset account;
5. Access to redraw; and
6. The option of a loan access card.

Whilst there may be fluctuations to variable interest rates, we have assessed this Product as being consistent with the likely objectives, financial situation and needs of consumers in the target market because it allows them to deposit funds into an offset account and/or make unlimited additional repayments to reduce interest payable. These funds remain accessible to the consumer.

Outside the target market

Consumers outside the target market are consumers that:

1. Require a loan to finance the acquisition of property for construction purposes;
2. Are self-employed and cannot provide financials;
3. Have material adverse credit; and
4. Are seeking to borrow through a self-managed superannuation fund.

2. Distribution channels and conditions

The Product can only be distributed by accredited intermediaries.

The Product can also only be distributed by:

1. Accredited mortgage brokers subject to a best interests duty and related obligations, directly to consumers ("Broker Direct Channel");
2. Mortgage brokers subject to a best interests duty and related obligations, through accredited aggregators, to consumers ("Broker Channel"); and
3. Accredited:
 - a. mortgage originators directly to consumers; or
 - b. mortgage brokers subject to a best interests duty and related obligations, through accredited mortgage originators, directly to consumers ("MO Channel").

The distribution channels and conditions are appropriate because:

1. The Product has a wide target market;
 2. Accredited mortgage brokers via the Broker Direct Channel and Broker Channel are subject to a higher duty under a best interests duty to ensure that the Product is in the best interests of the particular consumer;
 3. We rely on existing distributors, methods, controls and supervision already in place; and
 4. Our application and approval process has controls in place to flag consumers who may be outside the target market.
-

3. Review triggers

The following review triggers would reasonably suggest that the target market determination may no longer be appropriate:

1. A significant dealing of the Product to consumers outside the target market occurs;
 2. Material changes are made to the Product terms and conditions, other than changes to variable interest rates and consequential changes to repayments;
 3. A 30% increase in monthly complaint volume for the Product as compared to the average monthly complaint volume for the Product for the prior 6 months; and
 4. A 30% increase in the refinance rate within 6 months of settlement for the Product as compared to the average monthly refinance rate within 6 months of settlement for the Product for the prior 6 months.
